CANTERBURY, N. H., Feb. 28, 1899.

We, the undersigned, chosen to audit town accounts for the year ending Feb. 15, 1899, find said accounts correctly cast and properly vouched.

HENRY L. CLOUGH.

ALFRED H. BROWN.

REPORT OF SCHOOL BOARD.

FOR THE YEAR ENDING MARCH 1, 1899.

Progress in school work during the past year has been most significant and encouraging. While the schools may not rank as high in scholarship as we might wish, still we are confident that the teachers have worked diligently for the interest of their schools. Good government, clothed with kindness, and a good education are the requisites of a good teacher, and from our observation during the past year we feel assured that those whom we have employed are amply qualified.

The average attendance of pupils has been very fair, though we are sorry to say that some scholars have been kept from school from unjustifiable causes. The parents as well as the children may regret the loss of the education when it is too late. If children are not disciplined at home, they require the teacher to discipline them at school, and to retain them at home on this account is, on the part of the child, a great injustice.

The law requires that "Every person having the custody or control of a child between the ages of eight and sixteen years, residing in a school district in which a public school is annually taught, shall cause such child to attend the public school twelve weeks at least every year and six weeks at least must be consecutive, unless the child shall be excused by the School Board of the district because his physical or mental condition is such as to prevent his attendance at school for the period required."

"Any person who does not comply with the requirements of the preceding section shall forfeit ten dollars for the first offence, and twenty dollars for every subsequent offence." (Public Statutes, chap. 93, secs. 14 and 15.)

We have been obliged to limit the school weeks to twenty-six for want of funds, while we think thirty none too many. We have continued the Emery school the same number of weeks as

the others as the number of pupils in this part of the district required it. This school has been kept but one term of ten weeks for several years.

Few new text-books have been introduced into the schools this year, but we find that the schools are sadly lacking in Elementary grammars. We would also recommend that a Standard Dictionary of the latest edition be furnished for each school, that the education of the scholars may reflect honor upon the town.

We would suggest that the town raise money to the amount of two hundred dollars and pay the same to the trustees of the Kezer Seminary for the tuition of town scholars, on receipt of certificate from the school board, annually.

From a financial standpoint the Kezer is one of the least expensive schools in town. It has opened up a broad field of labor for both teacher and pupils, and it would seem that the town can ill afford to see it suffer for want of means to support it. At the present time it is giving tuition to twenty-two town scholars, and there are advantages offered in this school that none other in town can produce.

We would recommend, it consistent, that a primary school be opened in the east room of said seminary, that the younger scholars may receive more attention and also that the more advanced grades may have greater scope for their work; as it is, no teacher can do justice to herself or to the school.

We would also advise those interested in the welfare of our schools to visit them personally and form their opinions by observation and not by report, as the latter too often savors of prejudice.

The report of the treasurer will give an account of the receipts and expenditures of the year. Had the town raised one hundred and fifty dollars in excess of that raised by law, the schools could have filled out the thirty weeks on the present basis.

With many thanks for courtesies received, we hereby submit our annual report.

WILLIAM W. BRIGGS,
Chairman.
